PROCESSING

Providing Innovative
Operations and Maintenance
Solutions to our Partners

Recruiting and Onboarding

Building the right team is critical to success. We are experts at recruiting, selecting, training and retaining operations and maintenance staff.

Procedures and Training

We develop operating procedures, maintenance procedures and training programs to meet all facility and regulatory requirements, saving our clients time and ensuring a seamless transition to facility operations.

Commissioning and Start-up

Our goal is efficiency and safety in commissioning, start-up, and achieving facility performance requirements..

Operations and Maintenance Services

Polaris Processing manages all aspects of routine operations and maintenance to meet or exceed all safety, regulatory and operating goals. Our goal is continuous improvement through safe and efficient operations with maximum profitability.
